- UX Research
- User Flows
- Information Architecture
- Wireframing
- Prototyping
- UI Design
- Component Libraries
- Design Systems
- Web Design
- Responsive / Adaptive Design
- Competitor Analysis
- Mobile UI

Soft Skills

- Client Communication
- Problem Solving
- Ownership
- Collaboration
- Adaptability

Summary

UI/UX Designer with 3+ years of commercial experience and 39 completed Upwork projects with a 100% Job Success Score.

I work from research, user flows and wireframes through high-fidelity UI, responsive design and implementation. My Webflow and development background helps me design solutions that are realistic to build. I use AI tools and coding agents every day to explore ideas, build prototypes and work on apps.

Now transitioning from project-based freelance work into a product team to grow further in Product Design.

Selected Projects

TachoBook — iOS App for EU Truck Drivers **view behance ↗**

The goal was to design an offline-first iOS app that helps EU truck drivers log their shifts and better manage driving and rest time requirements.

- Combined competitor research with first-hand domain knowledge of EU trucking to define user needs and the primary persona
- Built information architecture, user flows, and low- to high-fidelity wireframes
- Designed the complete mobile interface, UI kit, and design system following Apple Human Interface Guidelines
- Created an end-to-end UX/UI case study from research to final product design

Tools: Figma, FigJam, Claude AI

Result: A complete iOS product case study covering research, UX structure, interaction design, high-fidelity UI, and design system development.

SpendiQ — Budget Planning App **view behance ↗**

The goal was to design a personal finance app that helps users track expenses and plan budgets without complexity.

- Conducted competitive analysis of top budget apps (YNAB, Monarch Money, PocketGuard)
- Created user persona, CJM and 4 core user flows
- Designed hi-fidelity wireframes for desktop and mobile
- Built design system based on Preline UI with custom SpendiQ tokens
- Delivered complete adaptive design ready for development

Tools: Figma, Preline UI, Freepik AI, Claude AI, SimilarWeb
Result: A clean, motivating finance app with consistent design system and full mobile adaptation.

Additional Technical Skills

- HTML
- CSS
- JS
- AI
- Webflow
- Swift/SwiftUI

Tools

- Figma
- FigJam
- Webflow
- Relume
- Adobe Photoshop
- Adobe Illustrator
- Terminal
- VSCode
- AI
- Notion

Languages

- English - Upper-Intermediate
- Polish - Fluent
- Ukrainian - Native

Education

IT School GoIT | Nov 2025 - May 2026

UX/UI Designer

Skhidnoyevropeys'kyy Universytet Ekonomiky I Menedzhmentu | Sep 2003 - Jul 2006

Bachelor's Degree: Computer Science

Wyrażam zgodę na przetwarzanie moich danych osobowych zawartych w niniejszym CV w celu przeprowadzenia procesu rekrutacji, zgodnie z Rozporządzeniem Parlamentu Europejskiego i Rady (UE) 2016/679 (RODO).

Selected Projects

Coastal Nest — Real Estate Website Redesign **view behance ↗**

The goal was to modernize an outdated real estate website and improve overall user experience.

- Conducted competitor analysis to identify design patterns in the real estate market
- Redesigned logo and established a clean, consistent visual identity
- Created adaptive designs for mobile and tablet screens
- Delivered high-fidelity mockups ready for development

Tools: Figma, Relume, Freepik AI, ClaudeAI, Similar Web
Result: A refreshed, professional interface with improved visual hierarchy and cross-device consistency.

Work Experience

UI/UX Designer & Webflow Developer **Sep 2022 – Sep 2025**
Freelance / Upwork

- Completed 39 projects for international clients with a 100% Job Success Score.
- Designed responsive websites and digital experiences from initial client requirements through final delivery.
- Worked directly with clients to understand business needs, requirements and feedback and translate them into design solutions.
- Created user flows, wireframes, high-fidelity interfaces, responsive layouts and reusable components in Figma.
- Implemented designs in Webflow and worked with technical constraints during development.
- Maintained strong client satisfaction and long-term cooperation with international customers.

Selected commercial projects:
SimplePrint — Designed and launched the public-facing brand and responsive product website from scratch, covering branding, UX/UI, reusable components and Webflow implementation.
view live ↗ **view case study ↗**

C-Octopus — Owned the end-to-end redesign and launch of a machine-vision company website, from branding and information architecture to a CMS-based product catalogue with dynamic search.
view live ↗

Fresno Samurai Arts — End-to-end UX/UI and Webflow project for a martial arts school, from site structure and wireframes to responsive design and launch.
